

What you need to bring

Aerial Tree Pruning

Equipment list:

- Pruning saw
- Secateurs
- 1 x Tree climbing harness
- 2 x Tree climbing ropes, ideally 35- 45m in length. Each with a friction hitch or mechanical friction device set-up, such as Prussik loop, Zigzag, Hitch climber. Plus, the necessary 3-way self-locking karabiners.
- 1 x Cambium saver, ideally 2
- 1 x Tape sling, ideally 120cm length
- 1 x Work positioning strop, ideally 5m in length. With a friction hitch or mechanical friction device set-up, plus the necessary 3-way self-locking karabiners.
- 1 x Hand Saw. A self-locking, or screw-gate, karabiner will be required to attach a hand saw to a harness.
- 1 x Throw bag and line
- 1 x Foot ascender
- Chainsaw lanyard
- **Current Loler 6 Monthly Thorough Inspection Certificate for all items**

LOLER Records:

All climbing equipment to be used on the course must have either a current (within the last 6 months) certificate of thorough inspection as required by the LOLER regulations (1998) or if less than 6 months old, proof of date of purchase (Supplier delivery note/receipt).

*Trainees will need to have a copy of these LOLER records with them for the climbing equipment they will be using for the duration of this course to show the instructor on **the 1st day of training**. Failure to do so may result in the equipment being deemed non-compliant and not suitable for use during the training.*

*Trainees will also need to have these **records with them on their assessment day, to show their assessor**. If these LOLER records are not available for the Assessor to check, the assessment will not proceed.*

Chainsaw & additional items:

- A lightweight, top handled chainsaw (maximum guide bar length 380mm/15 inch).
- The chainsaw may be a petrol or battery machine.
- Fuel, or batteries and oil for chainsaw.
- A strop for attaching saw to climbing harness, including necessary karabiners.
- A rear-handed chainsaw for use on the ground to cut up arisings.
- Maintenance kit. Please note that the saw and chain must be in good condition. The training/assessment will not specifically include saw maintenance. It is the responsibility of the operator to ensure that all tools are available to carry out relevant maintenance, should it be required during the training/assessment.

Continued Overleaf

Personal Protective Equipment:

- Helmet EN12492 (approved mountaineering style for climbing with visor and earmuffs), in date and with a chinstrap.
- Personal First Aid Kit (incorporating a large wound dressing, barrier gloves and a whistle).
- Chainsaw protective trousers with all round leg protection (Type C) – **In good condition with no damage to the protective material.**
- Chainsaw protective boots with good grip and ankle support. **Wellington type boots are not suitable.**
- Chainsaw protective gloves - required for when using a rear-handed chainsaw on the ground.

NOTE: Each learner must have their own set of climbing equipment, their own PPE and their own chainsaw.

Instructors will not undertake training where trainees do not have the appropriate protective equipment and saw.

Assessors will not undertake assessments where trainees do not have the appropriate protective equipment and saw.

All Personal Protective Equipment (PPE) must comply with the requirements stated in the Arboriculture Association Technical Guide 1 (Tree Climbing and Aerial Rescue) and Technical Guide 2 (Use of Tools in the Tree). It must have the relevant EN numbers and CE markings.

If you have any queries regarding your own equipment or equipment required, please contact Land Skills.
